Our Learning Policy

This policy was developed by the children, staff, parents and governors at Swalecliffe Community Primary School through a process of consultation.

Independence, collaboration, reflection and resilience are the four qualities and skills that we have identified as being the most important ingredients for our children to become outstanding learners.

This policy sets out targets for our learners and how teachers will support them to achieve these.

The policy was reviewed and adopted in 2019.

The policy will be reviewed in March 2022.
